Welcome to T.A. Brown, "The Best School in Town That Is College Bound!"

At T.A. Brown, our aim is to be a leading campus in academic excellence, to cultivate positive relationships with parents and community, and to prepare scholars for college and career.

At T.A. Brown, we believe in...

- Academic Success. T.A. Brown has a long history of preparing students for college and career success. All scholars are part of the "Early College Prep" pathway that leads to college credit at the middle and high school levels.
- Positive Relationships. We believe in building positive relationships with all community stakeholders and parents. As a team, we can help our scholars become successful in academics and life, and ensure that they come to school every day, ready to learn.
- Whole Child Education. We believe in supporting all needs of children, including academic, physical, social and emotional. Our commitment includes offering campus-wide supports for students and their families, including wraparound services, tutoring and mentoring, on-campus dental services and a campus-wide social and emotional learning curriculum. We also offer a wide range of after school and extracurricular options for our scholars.

We invite all community stakeholders to join our commitment to the success of T.A. Brown scholars!
